Hopping you doing well.

## Action plan children's home and preschool in Sululta

On the 2nd of January 2022, we flew to Ethiopia to coordinate the start-level of the construction "Kindergarten and pre-school in Sululta". During the first week there were several meetings with representatives of the regional school ministry and the city mayor of Sululta. The entire construction planning and the choice of location were discussed. According to the pre-planned project from the Government side a new location was offered for our project with an

**We'll start with**

area of 4000 square meters.

.The final decision of the construction was agreed during the second week of February 2022.

The laying of the foundation stone and the groundbreaking ceremony took place on 01/29/22. In the presence of Minister of Women and Social Affairs (MoWSA) deputy minister Mrs MUNA Mohamed City Mayor. Sululta, the village elders as well as

families and friends took part.

And also with many representative of the international "Global Woman in Trade, Diaspora team".

We started the building with standard way of building, According to the Government plan the total cost of the project was estimated to be cost 172.389,52 Euro ,to build in two Phases. and we are making the main block with 1 L-shape. So we decide to start building and finishing a construction

**We started build the L-shape with all necessary rooms and toilets, Water tank**

before the Ethiopian Winters coming.

**Block Two**

**In Block ONE we have:- 8 classrooms and 6 toilets**

**A- 2 class rooms -50 square meters and 40 Square meters**

**B- 1 shaded play room with 15 Square meters**

**C- we are also additional class room of 35 Square meters**

**D- Wir Have a little Clinic room with 16.5 Square meters**

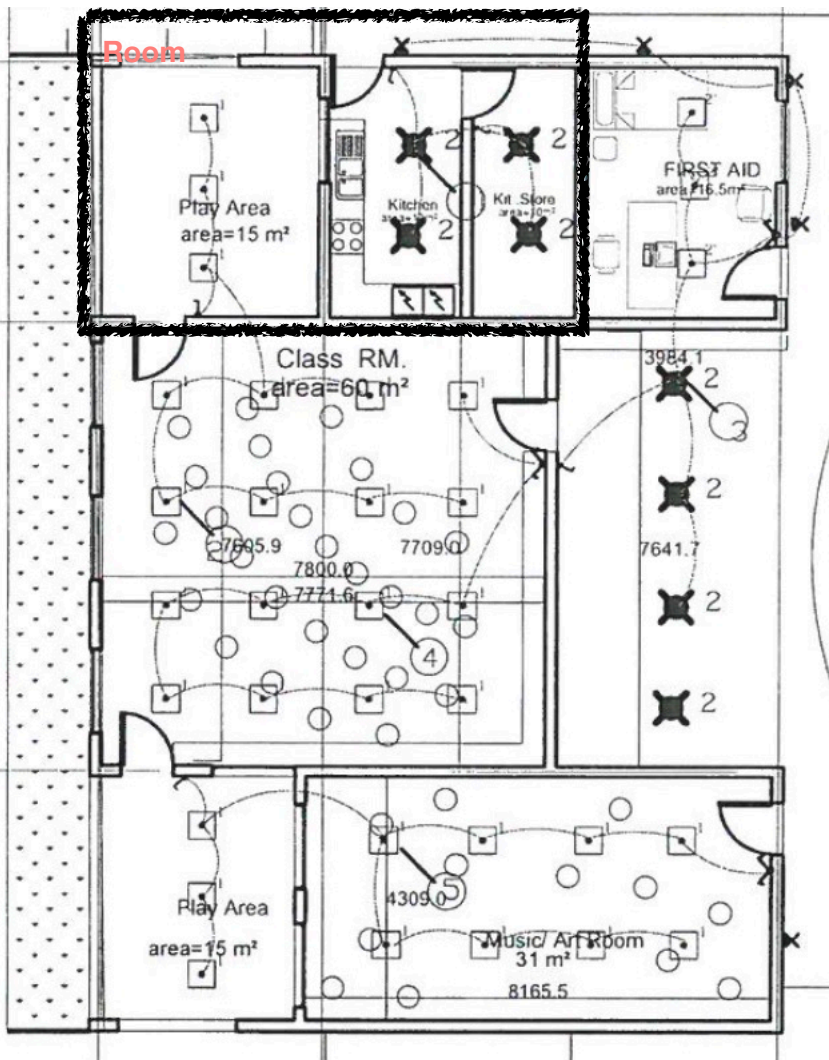

**In Block TWO we have:-**

**A- Dinning Room with a kitchen 54 square meters**

**B- Sleeping or Nap room with 42 Square meters**

**C- is Toilet 2 for staff and 4 for the Children**

**D- office**

**E- one Showering place**

**The main L-shape to be build at the first**

### water tank at school

Currently there are 10 different private water industry in Sululta. The water industry have already drill water hole 300m far. As I originally planned, my Drilling in 2018 about 70 meter, that bring us not enough water to pump. Therefore we have decided to build a water safety tank for the school with the capacity of ,10,000 litter of water.

Including 10000 liter of safety Water Tank  
as you see on the picture
